

BRAIN WAVE

NUMBER 5
(MARCH 2017)

Special number: **SIGHTS OF TYUMEN** welcome and see it yourself!

The trees along this city
street,
Save for the traffic and the
trains,
Would make a sound as
thin and sweet
As trees in country lanes.

And people standing in
their shade
Out of a shower, undoubt-
edly
Would hear such music as
is made
Upon a country tree.

Oh, little leaves that are so
dumb
Against the shrieking city
air,
I watch you when the wind
has come--
I know what sound is there.

Read in today's paper:

In our previous number we told about some places in Tyumen and now we want to tell you more about this city. There are so many interesting places here! We love the city we live in! It is beautiful! We hope you'll like it too!

Parks!

Alleys!

Museums!

Our beautiful embankment!!

Krementsov Anton

In Tyumen we have a lot of sights and places to visit. We have beautiful gardens and groves, parks, monuments and museums. And I want to tell you about all streets and sights.

Tsvetnoy boulevard waits for you!..

Tsvetnoy boulevard is one of the most famous attractions in Tyumen. It is a place where we like to relax. Its length is about 800 meters, and it consists of five areas: Fountain, the area of Arts, the Circus and the Sports area.

In the center of the Boulevard there is the largest and the most beautiful fountain in the city. It is called "seasons". It is made of stone, bronze and colored glass.

There are many attractions, cafes and some other places which are very interesting.

Those who like sports can ride a bike or a horse.

There are a lot of trees, bushes and lawns on the territory of the Boulevard. It makes this place more beautiful.

In winter it becomes a brilliant ice town where we love to play.

We love Tsvetnoy boulevard for its beauty and good emotions which it gives us!

Chukmaldin's park! (Let's dance with a fountain!)

This park is big and new. There are a lot of trees, flowers and grass here.

There is a unique fountain in the park. When the night falls, the fountain jets begin to illuminate. It's very beautiful.

In the center of the park there is a monument to the merchant Nikolai Chukmaldin. The park was named in his honor.

The bridge of Love

The bridge of Love connects two banks of the river Tura.

It was built in the eighth of the twentieth century. Its romantic name the bridge received in 2003. At that year there was a competition for the longest kiss on it.

The phrase "Tyumen Bridge of Love" is very popular among couples, honeymooners and wedding photographers.

There are a lot of traditions, connected with this bridge: on the wedding day the couple is attached their lovers lock to the bridge and put keys to Tura.

And finally ... The bridge of Love is the unofficial symbol of Tyumen today. At the last voting it received the maximum number of citizens' votes.

Tyumen

Square of deputies

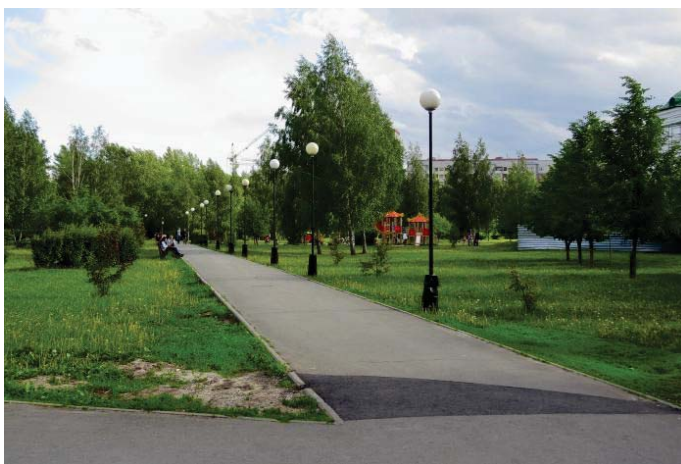

One of the most beautiful places in Tyumen is the Square of Deputies.

It is situated near my home. It is a very clean place.

There are a lot of benches, trees and bushes in the park. We also can see unfinished Cathedral here.

The square is full of flowers!

In general, each can find in this park something for himself. I love to walk there in the evening and look at others: loving couples, moms with baby carriages, joggers, skaters, picnic lovers... In the Park we can go a whole day because it is very good and beautiful!

Birch Grove (The place for peace)

There is a beautiful birch grove in our city. It is near Shirotnaya street. I like to go there alone or with friends and find myself in a wood for about 10 minutes.

Why I love this place? At first, it is a beautiful, especially in autumn. Grass becomes dark, and trees are dressed in multicolored dress. Leaves fall down together with snow.

I like to sit on a bench and think about something good. I can chat with friends there, read a book or just stay alone.

For me it is a place of peace and tranquility.

The monument to Mother (The main person in the world...)

The monument to mother is situated in the center of Tyumen on the Sverdlov street. It was opened on the 60th anniversary of the International children's day.

The bronze monument depicts a pregnant woman, there are children next to her. Originally it was planned to establish a father near her, but the author refused this idea because a woman has a ring on her hand. People from all over the world like this monument and come here to see it.

Limericks!!!

Our today's guest is **Georgy Gladskikh** — a cadet of 6A form. He is fond of his native city and wrote some limericks about it. Let's read!
